## OLE BOODE

### Whole of Egypt Now in a State of Insurrection

London, March 26—Defending the military service bill in the House of Commons Tuesday, Winston Spencer Churchill, secretary of war, declared that the whole of Egypt was in a virtual state of insurrection. The position was so dangerous, he added, that the government appealed to men on point of demobilization to return and save their comrades from being murdered.

The declaration by the war secretary was brought about by the remarks of Sir Donald Maclean who said that Great Britain was grossly over-insured with respect to the strength of the army. Mr. Churchill asked if he formed what was taking place in almost every country at the present time and if so, how could he say that there was over-insurance in keeping 900,000 men for every purpose, including ten divisions in the Rhine and four divisions in the home country, less than the number kept here in the peaceful days before the war.

Only three days ago, continued the secretary, a situation developed in Egypt, which was a very far reaching danger, and which made it necessary to appeal to the men who were collected at various posts for demobilization to go back and help their comrades and save them from being murdered. The whole of Egypt was virtually in a state of insurrection.

Had Sir Donald read of what was taking place on the Balkan Sea, in Hungary, and on the whole frontier of these small states which were guaranteed protection by the league of nations? Sir Donald had said continued the secretary, that the German army was to be reduced to 100,000 men and that the Germans were to have no more boy scouts. That, the speaker asserted was what the allies were going to demand, but had the Germans agreed to it, and was there any chance of their agreeing to it, if the allies divested themselves of all their forces at the present time?

"The government," said Mr. Churchill, "has to face the real facts. If we squander our forces at the present time before our terms are secured, with European condition of increasing gravity and perplexity then we shall be thrown away with both hands all the results gained by the sacrifices of millions of our men during the past four years."

The liberal opposition had proposed a series of amendments to the military service bill, which, Mr. Churchill declared was intended to wreck the bill. There was no truth in the accusation that the government had not tried the voluntary system.

Objection was taken to men being invited to re-enlist for as long as two and three and four years. But unless men were secured for those periods, it would be impossible to relieve territorial and other troops in India and elsewhere, who ought to have effective relief. He thoroughly agreed that the government must do everything possible to secure a voluntary army at the earliest possible moment.

For That He Would Never Walk Again

"FRUIT-A-LIVES" Balm

MR. LORENZO LEDUC

8 Ottawa St., Hull, P.Q.

"Fruit-a-lives" is certainly a wonder.

For a year, I suffered with Rheumatism; being forced to stay in bed for five months. I tried all kinds of medicine but without getting better; and thought I would never be able to walk again.

"One day while lying in bed, I read about 'Fruit-a-lives' the great fruit medicine; and it seemed just what I needed, so I decided to try it.

The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me.

I have every confidence in 'Fruit-a-lives' and strongly recommend them to every sufferer from Rheumatism."

Alix News	
This week it is our sad duty to chronicle the death of one of our old timers, in the person of Marian M. Somes, wife of Mr. L. Tucker, which sad event took place early Thursday morning at the age of 59 years.	
The cause of death was dropsy of the heart which developed from the flu.	
The deceased was a native of the U.S., being born in the state of Missouri, but migrating ago with her husband she came to Alberta and settled in Alix district.	
Following a week's sickness, at 8 o'clock this morning, April 2nd, Maude Mable Mathews beloved wife of Mr. A. G. Ditto, passed into the great beyond, death being due to heart trouble caused by an attack of influenza.	
The deceased was in the prime of life, aged 35 years and 3 months, was of a kindly disposition and a friend of all who knew her. In addition to a sorrowing husband she leaves three little children, Agnes aged 10 years, and John, aged 7 years, and a baby aged 6 months.	
We regret to record this week the death of Miss Mabel Johnston which took place at the family residence on Saturday, March 29th, after a long illness. Miss Johnston was born in Guysboro, England, on September 25th 1889, so was only 29 years and six months old at the time of her death.	
She came to Siedler with her parents quite early in the history of the town, and has been a resident ever since, although absent for some months at a time in search of health.	
The funeral service was held at the Methodist church on Monday at 3.30 p.m. by Rev. A. B. Argue, after which interment took place in Stettler cemetery.	
The Rebecca Lodge of which deceased was a member was in attendance and conducted service at the grave after which the Burial Service was read by Rev. Argue.	
The entertainment and dance given on Friday evening, March 21st, under the auspices of the Mirror U.F.W.A. was a grand success. A good programme of music, solos, choruses and a short sketch was rendered by local and outside talent. After which the floor was cleared and the light fantastic was tripped till the small hours of the morning.

## Facts About Russia

While the rest of the world complained that trustworthy information about Russia was not obtainable, because everything coming out of that country was distorted one way or the other, Socialists collected a great deal of authentic Russian information for the guidance of their recent international convention at Bern. They went to the Bolsheviks themselves for the information, and having digested it they denounced the Bolshevik rule.

Though suppressing every Russian publication not friendly to them, the Bolsheviks are great publicity agents on their own side. They have their official and semi-official newspapers and various government organs covering particular fields. It was from the files of these publications that the Socialists compiled their report taking nothing from the Bolshevik sources and giving the authority for their statements in each case.

The Socialists were not interested in what the Bolsheviks did to the bourgeoisie and paid no attention to that, their general idea being the more anybody does to Bourgeoisie or property owning class, the better. They were not interested in reports of Bolshevik terrorism, massacres, and so on, for they allow that much disorder of that sort will usually accompany a revolution. They confined their attention solely to the result of Bolshevism upon the very class in whose exclusive interests it professes to rule—namely, upon the proletariat, or urban wage earners. Socialists condemned Bolshevism because they found, out of its own mouth that it was destroying the very class it is supposed to benefit at the expense of all the rest of the society.

The Bolsheviks' own reports showed that the population of Petrograd had declined about two-thirds, only about eight hundred thousand people being left out of about two million four hundred thousand. Population of Moscow had declined about sixty per cent. In one group of Petrograd factories the number of workmen had fallen from two hundred—and twenty seven thousand to a hundred and twenty thousand. Moscow metal worker's unions had lost a hundred and twenty thousand members out of a hundred and eighty three thousand. Chemical worker's have lost three-fourths of their members. Other such instances are cited from Bolshevik reports.

City wage earners have been disappearing into the highly paid army, drifting out to the villages turning peddler and petty speculator. Output of a large group of textile factories had declined three quarters. Not only has the number of workers greatly decreased but output per man had fallen. The Petrograd Stat reported that the state had advanced ninety-six million rubles to the famous Putiloff works—formerly one of Russia's leading industrial establishments—of which sixty-six million rubles had been expended in wages while total output of the works assisted, in the same period was valued at only fifteen million rubles. From various reports it seemed that the total factory output equaled only about half the sum drawn from the state treasury; hence an official complaint that the government had been obliged to print paper money at the rate of 200,000,000 rubles a day, and that the value of the rubles in the interior of the country had fallen ninety-five per cent.

Last November the Central Executive Committee declared that the food shortage in Moscow was largely due to looting and plundering. In December a government organ complained that the mass of new industrial officials appeared only twice per month—to draw their salaries. As to an enormous increase in the number of such officials five districts in the province now show four hundred and ninety-five officials where formerly in two districts there were only two hundred and twenty-five. The report was couched by non-Bolshevik Socialists who were possibly more or less prejudiced against Bolshevism by what they had learned before. But they give the Bolshevik source of their information in every case, and it hardly lies in the mouths of the Socialists to question the integrity of Karl Kautsky and Branting, or of Simon Strunsky, who sends a summary of the report to the Evening Post of New York. The Bolshevik reports are all several months old by this time, but Bolshevism had been in operation long enough to give an idea of how it operated.

The great argument for Socialism is that it is more efficient than the capitalist system, but the Bolsheviks are undermining this argument.

Of course they still say that though it worked most disastrously in Russia it would work beautifully some other place—any place where it has never been tried. But here is its own report of itself in the only place where it ever has been tried. For Bolshevism aside from its Red Terror—that is, on the economic side—is nothing else than orthodox Marxian Socialism put into liberal practice.

## Notice

**TERMS CASH LUNCH AT NOON****C. F. DAMRON****Auctioneer****Crerar Opposes Fixing of 1919 Wheat Prices**

Ottawa, March 28.—A declaration by Hon. T. A. Crerar, minister of agriculture, that he is personally not in favor of the fixing of the price for 1919 wheat crop was the important feature of the first meeting of the house of commons committee on agriculture, which met this morning, R. C. Henders presiding.

"I am opposed," said the minister, "to the fixing of a price for wheat for the coming crop. I do not think we should take from the public treasury a very considerable sum of money in the nature of a bonus to the farmers of Canada. I fully appreciate the position of the farmer of Western Canada who has suffered from poor crops for the past two years, but on the other hand, the principle in unsonant and it would be difficult to justify any call on the treasury under present conditions."

Mr. Crerar added that Mr. Hoover, United States food controller, had expressed the view that all surplus wheat production of this continent and other countries will be required if it is possible to secure stable governments in Europe.

Previous to the meeting of the foregoing important statement, Mr. Crerar, in addressing the committee, reviewed the circumstances which have led up to the existing surplus of wheat in the world, more particularly as they affect Canada.

He admitted that the whole situation depends on the development in Europe. If stabilized government of these countries are able to provide the necessary credits to pay all surplus wheat including present stocks on hand, the next crop will be absorbed.

**Good Policy**

Bruce Walker, of the Dominion Immigration Department, made an announcement of unusual interest at a gathering of prominent western businessmen in Winnipeg the other night. According to him, the government intends to spend a million dollars in the United States during the present year on immigration propaganda, the idea being to get the American farmer in larger numbers across the border.

With a greatly increased national debt due to war expenditure Canada is faced with the necessity of raising a much greater annual revenue than during the pre-war years. The only way in which this can be accomplished without making

ing an unduly heavy strain on the people is by greatly increased production. There cannot be very much increase in production unless we get an increased population, particularly upon the land. Therefore any policy which ensures increased agrarian population should be welcomed.

The idea of making the campaign in the United States is wise in view of existing conditions. Time was when we looked to Europe for our land settlers. The ravages of war have made dependence upon this source of supply extremely risky. Besides which we would require to hand-pick such immigration as we might get from Europe in order to safeguard against the appearance of people of enemy countries. Across the border then, we must seek the type and numbers that we need. There is reason to believe that the right sort of campaign carried on in the states will prove a great success. For reasons that are well known the enterprising American farmers regards the Canadian west as pretty good country. He has come to know it favorably by observation and report. He doesn't feel as if he were going far away from home when he comes up here and he quickly adapts himself to our way of doing business and he makes a good citizen.

Let the proposed campaign be conducted with good judgment, and we feel certain that it will be the best spent million the Dominion government has authorized in many a year.

**Good Proposition for Returned Men**

The Grain Grower's Guide strongly commends soldier's land settlement proposals and thinks if wisely administered they should succeed in placing a large number of returned soldiers upon the land under the most favorable circumstances. The Guide adds:

"Soldiers desiring to locate in each province will be examined by a qualification board as to their fitness for farming. A returned man who has previously had good farming experiences will have one of the best opportunities ever afforded to a settler going upon the land. This settlement scheme is very generous and in that very generosity there is a great danger that the soldier may not plan as wisely as farmers have to do in order to make a success of their industry. The farming industry only permits of success generally through the greatest industry and frugality, and the future will find it harder than ever for the farmer to strike a proper balance at the end of the year. In addition to this generous financial treatment, the soldier settlers should be given every assistance in the way of practical advice and information. This is where their farmer neighbors and local grain growers associations can render the greatest aid to their new neighbors. It is at once a privilege and an obligation to render service to those men who have rendered service to us greater than can ever be repaid."

**MOST BRUTAL MURDER**

**NEAR BOWMANVILLE**  
Bowmanville—Ont. April 2.—Mrs. Hanna Copeland was brutally murdered yesterday at her home in Newtonville, 10 miles from this town, and her son, Herbert Copeland, is in jail here on a charge of matricide. The crime was of a most shocking nature and the deed largely by the accused himself, in response to a telephone message from neighbors of Copeland. They said they had witnessed the accused drag his mother's body out of the house into the yard.

The story told the high constable was that the son quarrelled with his mother over a pocket handkerchief of his, which he declared she had. When he failed to get it, he made a vicious attack on her with a sharp bladed pocket knife, and slashed her abdomen. Then she attempted to run out of the house but he seized an axe and struck her down with it.

It is said he then proceeded to disembowel her and cut her open as he might have done if butchering an animal, both the knife and axe being used in the operation. The entrails were cut out and thrown into the stove. Both her arms were were cut off and with the trunk of the body were placed beside the stove, with kindling wood around them. The kindling wood was lighted, with the apparent purpose of destroying the evidence of the crime, but the fire was extinguished before this was accomplished. Then the mutilated body was dragged into the yard.

Copeland is a farm hand, and has lived at Newtonville all his life though not with his mother latterly.

It is alleged that Copeland was religiously insane and had been acting strangely since Sunday. An inquest was opened last night, and adjourned till Monday next.

**May Give Vimy Ridge To The French**

Paris, April 2.—The French press, in commenting on the announcement that French government intended to offer as a gift to Canada the Vimy Ridge, speaks with great enthusiasm of Canada's year effort. La Liberté writes as follows:

"Vimy is indeed the spot where the gallant troops of the Dominion have acquired an immortal reputation."

Sir Robert Borden proceeds to London on Thursday, where he is to confer with Sir Edward Kemp and Sir George Perley, as well as with members of the British government respecting demobilization and other important subjects. While in London he will attend the McGill dinner on Friday and unveil a beautiful memorial, the gift of Major and Mrs. Astor, which is to be erected in the cemetery on the grounds of Cliveden consecrated to the purpose.

Hon. Mr. Doherty has been made a member of the international law union, recently organized as one of the results of the deliberations on the league of nations. The union will have its seat in Paris and its membership is confined to forty persons. Its object is the active study of new problems growing out of the war, which are to be approached in the spirit of co-operation upon which the league of nations is founded. Hon. Elihu Root and James Brown Scott have been elected as members for the United States.

**Death of Leo W. Young**

Saturday morning the 29th, the death took place of Leo W. Young son of Mrs. John Young, Ponson, deceased, who was thirteen years of age, had been ailing for some considerable time, and was taken to Red Deer hospital where he underwent an operation. For a time it looked as if he was improving, but complications set in, and he was brought home last week.

Of a bright and obliging disposition, the young lad was a general favourite in the community. As a mark of respect the school flag was placed at half mast while his school dress was suitably draped by his class mates.

The farther it goes, the more mysterious the liquor investigation in the public accounts committee becomes. Now we hear that whole barrels of whiskey disappeared from unexcused consignments in transit. We may never get to the bottom of the affair, but already, enough has been disclosed to show that things in the government's liquor department have not been as they should be.

**B. M. Noad Victim of Influenza**  
The death of Byron McLean Noad took place on March 27th, on his farm, near Morningside, as a result of pneumonia following an attack of the influenza.

Deceased was 37 years of age, and was born in Ingersoll, Oxford County, Ontario. He came to Alberta about 10 years ago, and being a graduate of the dairy school at Guelph, Ont., was an efficient employee of the Edmonton City Dairy for several years. Over a year ago he bought the J. C. Bell farm, and was held in high esteem by his friends and neighbors, who are grieved to learn of his death at the beginning of a promising career.

Three brothers survive him—Dick who lived on the farm with him; Harry living in Ingersoll and William in St. Mary's; also two married sisters who reside in Ontario.

The remains have been sent east and will be laid in family burying ground, Ontario.

**New Real Estate Firm**

The Alberta Washington Land Company is another acquisition to Lacombe's business directory. Situated in the Old Royal Bank Building opposite the depot. The new firm will handle all kinds of farm lands and real estate with numerous connections with American Agencies. They will get some good new moneyed people for this district.

H. E. Kennedy is president and manager. J. A. Lundy secretary-treasurer. In speaking of the new firm's prospects, Mr. Kennedy said, "We have quite a number of people headed this way, and I regret that Lacombe is so little known to the outside world. I made a trip last fall to Washington and part of Idaho and your splendid district is practically unknown. I would like to see the business men of Lacombe put on a campaign of publicity telling the people of the outside what a wonderful diversified system of successful farming you have in this district."

J. Arthur Lundy who served overseas for two years is well known in this district, having lived here eight years.

Is it impossible that the German government is nurturing the Bolshevik and Spartacist movements in the fatherland with the idea that should the peace proposals not be to its liking it might throw the sponge and turn the country over to the revolutionists, thus temporarily evading the issue of payment and making a lot more trouble for the Allies? One can never tell just what is going to happen in Germany these days.

Why should you go through life with half sight, or poor vision? The other day I fitted a man with glasses who had gone through life so near sighted that he could not recognise a friend across the street. This man had never known the joy of clear vision, and it was a pleasure to see his delight when he viewed distant objects for the first time.

Then there is a person who has a headache after reading for a short time. It is more painful that the near sighted condition, but yields equally when proper glasses are worn. If you are having trouble with your eyes, have them tested.

## Deering Farm Machinery

### A Complete Line of Machinery

See the Deering Drill before you buy elsewhere.  
The result of your years crop depends on the accuracy and  
efficiency of your Drill. The continuous steel axle, adds to the  
strength and has a special advantage when turning at the ends  
of the field. The pressure springs are located in the rear, re-  
moving the neck weight. The adjustable truss rod which runs  
the entire length keeps the grain box from sagging. Don't  
risk borrowing your neighbors drill, it is unsatisfactory and you  
may not be able to get your seed in on time. A complete line  
of Disc and Shoe Drills on hand for Spring delivery. When in  
town, drop in and let us quote prices on your spring machinery.  
We are making a special effort to meet your demands on all  
kinds of repairs.

## Bentley News

On Friday, April 4th 1919, at 4  
p.m., the death occurred of Mr.  
Donald McIntosh in his 82nd  
year. Just two weeks before he  
was stricken down suddenly with  
a severe attack of gall stones, and  
while at times he seemed to be  
some better, he continued to grow  
weaker under the continued at-  
tack of the malady.

Donald McIntosh was born in  
Glengary County, Ontario in the  
year 1837. When about thirteen  
the family moved to Kincaid  
Township, Bruce County, Ont.  
On October 20th 1859 he married  
Miss Jane Wilson, who predeceas-  
ed him ten years ago. Mr. Mc-  
Intosh was quite a wanderer. In  
1859 he went to California where  
he stayed two and a half years,  
later on he spent some time in  
Nebraska, each time returning to  
his home in Bruce County for a  
while. In 1886 he went to Mont-  
ana where he prospected for 14  
years. After spending a short  
time in Duluth Minn. he came to  
Alberta about 20 years ago, he  
first homesteaded for his son on  
the farm now operated by Mr.  
Erb, on the meridian. His own  
homestead was the farm on the  
Lacombe and Bentley road about  
6 miles from Lacombe, where the  
gravel pit is. Three or four  
years ago he came to Bentley  
where he has lived by himself,  
first in the property owned by Mr.  
Shaver, and last fall he built a  
shack on his lot opposite Mr.  
Bireh and has lived there this  
winter.

He is survived by one son, Do-  
nald A. McIntosh of Vancouver,  
and one daughter, Mrs. R. R. Hut-  
chinson, of Bentley. There are  
three grand children and two  
great grand children.

The funeral took place on Sat-  
urday afternoon from the late  
residence to the Bentley Ceme-  
tery.

The Hutchinson family wish  
to thank all the neighbors and  
friends for their kindness during  
the illness and since the death of  
Mr. McIntosh.

Mrs. F. Court is spending a few  
days in Calgary.

The Rainy Creek Community  
night was held at the home of  
Mrs. Thompson on Wednesday  
night, when a very enjoyable  
evening was spent in social in-  
tercourse, games and music.

Mr. and Mrs. J. B. McPherson  
returned last week from a trip to  
the south west. J. B. says there  
is lots of fine things to view in  
that country, but there was nothing  
any better than Alberta for  
real living.

Born—To Mr. and Mrs. Stoner  
on March 27th, 1919—a son.  
The closing dance of the M.  
W. A. Blindman Valley Camp  
No. 1409 will be held in the Ben-  
tley Hall on Friday night, April  
11th. Supper will be served at  
the Cottage Home Hotel.

We understand that Mr. John  
Whitell spent the week at Sun-  
day School. Some folk say he was  
prospecting; others want to know  
whether he was looking up a  
homestead or pre-emption—or is  
going to file a soldiers claim.

Born, on April 3rd last, to Mr.  
and Mrs. Almer Hankins, a daughter.  
Mr. Frank Harrison left last  
week for a visit to his old home in  
Oregon.

Mr. and Mrs. C. C. Miles are leav-  
ing this week to live with their  
daughter, Mrs. Geo. Stephenson,  
in Lacombe for a short while.  
They expect to leave for the States  
in May for an extended visit to  
friends and relatives east and  
west. They have sold their resi-  
dence to Mr. T. Lorimer.

Mrs. Cochrane and the girls  
spent the week end at the Wil-  
liams home.

Born, on April 4th to Mr. and  
Mrs. Grover Robinson, a daugh-  
ter.

It was very unfortunate that  
the Y.P.S. had a stormy night  
last week. One of the most in-  
structive and entertaining pro-  
grams yet put on, was the illus-  
trated address on the Irish Navy  
by Lieut. Ernest Haywood, F.R.  
G.S.

Over 100 pictures were  
shown, giving a splendid idea of  
the navy and varied tasks of the  
British Seamen and the splendid  
equipment which is provided for  
in different types of ships. Mr.  
Haywood is a splendid lecturer,  
having a free and easy style of  
delivery which is pleasing to an  
audience; his graphic account  
tions of the Falkland Islands, the  
Enderby episode, the bottling up  
of Zebruge and the Battle of Jut-  
land, illustrated as they were by  
splendid maps and pictures, was  
perhaps the most interesting part  
of the lecture. It was too bad  
that so many were hindered from  
being present by the extremely

nasty weather. However, it was  
very encouraging to the execu-  
tive to have 50 people present any-  
way. We are sure all who did  
come felt amply repaid.

The next meeting of the Y.P.S.  
will be in charge of the Celebrity  
committee. Be sure to be pres-  
ent for this.

We were rather amused to read  
in a Calgary paper, a despatch un-  
der date of April 4th to the effect  
that the farmers in the Lacombe  
District were through seeding and  
that Mr. Leachy of Bentley was  
just finishing seeding 2500 acres.  
It would seem that the best place  
to get news of the Blindman  
Valley is in the Calgary papers  
and not the Bentley Bulletin.

That is what annoys us. We  
beg for the news for our small  
news sheet and find difficulty in  
getting very much, and then some-  
one sends real news to Calgary.  
Gets a scoop on us. Please help  
us to keep up to date. One man  
with 2500 acres all seeded and we  
did not know that anyone had be-  
gun seeding yet. We suppose the  
trouble is we do not work hard  
enough in the news. We saw a  
little verse the other day which  
probably illustrates our weakness.

"All things come to him who  
waits."  
That's the rule that's slicker.  
The man who goes for what  
he wants.

Will get it all the quicker.  
We will be glad to make a note  
of the farmer who first starts  
seeding and also who first finish-  
es—Send us in the news.

Mr. Fred Nelson is moving this  
week. For the present he will re-  
side on the Old Bligh farm owned  
by Mr. H. C. Peterson.

Things are changing hands rapidly  
these days. A few weeks ago,  
Mr. Surratt purchased three quar-  
ters from Mr. J. M. Carritt. Now  
Mr. Surratt has traded one quar-  
ter (where Mr. Fred Nelson has  
been living) to Mr. H. C. Peter-  
son for his home quarter. This  
deal helps to consolidate the Pe-  
tersen holdings and Mr. Surratt  
can be more central in his  
dealings.

The shareholders of the Co-op-  
erative store held a meeting in  
the hall last Wednesday when  
there were about fifty present.  
The manager made a statement  
of the assets and liabilities and  
a very good balance sheet was  
shown. The meeting then discus-  
sed the question of a new build-  
ing and an almost unanimous vote  
was passed in favor of going a-  
head with the business and pro-  
viding an up-to-date building to  
carry on with. A canvass of the  
meeting was made and in a few  
minutes \$3300.00 was subscribed  
towards a new store building.

The management have tied up  
the old building south of the gar-  
age and a full stock of fresh gro-  
ceries were on hand to open up  
on Wednesday. The boots and  
shoes and dry goods saved from  
the fire will likely be sorted out  
and on the shelves by Saturday  
and more goods are on order. We  
are very pleased to see the enter-  
prise of the farmers in this mat-  
ter and trust they will continue  
to support this Co-operative pro-  
ject.

Mr. Fred Daniels is spending a  
few days at Calgary this week.  
Mrs. J. C. Carritt re-  
turned on Monday from Iowa.  
They were accompanied by Mrs.  
Carritt's Mother, Mrs. Peabody,  
and Mr. Carritt's sister, Mrs.  
Rawlings. They expect to spend  
the summer in Canada.

Remember we carry pumps—

tley.

A programme and neektie social  
will be held in the Sunset  
Schothouse on April 12th at 8  
o'clock under the auspices of the  
Sunset local U. F. A. A cordial  
invitation is extended to all to  
come and have a good time.

We are very pleased to read the  
greetings from the Pres. of the  
United Farmers Association to the  
Great War Veterans in the Farm  
and Ranch Review. For the sake  
of our own farmers and our own  
veterans, we quote a here.

A splendid and concise statement  
of conditions as they are.  
If you have any potatoes for  
sale, phone A. Urquhart and Co.  
GREETINGS FROM U. F. A. TO  
G.W.V.A.

As farmers we extend a hearty  
welcome to the Pres. of the Great  
War back to civil life.  
Your work at the front has been  
well done.  
Your country owes you much  
besides sentimental gratitude.  
It owes sympathetic and liberal  
treatment of all disabilities.  
It owes intelligent, co-operative  
assistance in getting men estab-  
lished or re-established.

# Bentley Co-Operative

Owing to our recent fire we are unable to serve our customers  
for a few days, but a new stock is on order, and we expect to  
be ready for business in the Munroe building south of Thorp  
Bros. Garage in about a weeks time.

It owes to all returned men, so-  
cial conditions under which they  
can have a reasonable change of  
building and maintaining comfort-  
able homes for their families.

Above all, it owes to the return-  
ing men and those who will never  
return, to strive in all good faith  
to make Canada a democracy in  
reality and truth.

If Canada pays this debt to you  
she can do no more.  
You owe it to yourselves and to  
Canada to take a firm insistent  
stand that Canada be made a safe  
country in which returned veter-  
ans and all other people can build  
homes and rear families.

You owe it as Veterans and citi-  
zens to sympathetically co-operate  
with all Canadian forces that are  
working to these ends.  
The United Farmers of Alberta  
acknowledge our indebtedness to  
you and we want to pay our in-  
debtedness, not in high sounding,  
meaningless words and phrases,  
but in practical co-operation.

We welcome all of you to Alber-  
ta farms who see fit to come.  
We will not look on you as com-  
petitors, but as neighbors.  
Our organization is for the pur-  
pose of bettering farm conditions  
and to that end we want the help  
of everyone of you that cares to  
take a chance on a farm.

Our strength will be your  
strength. Your strength will be  
our strength. We can and we  
will do it. We think it right and  
just, but we will ask for that till  
we develop force enough to get it.  
We have nothing easy for our-  
selves, we can do nothing easy  
to you.

You braved the trenches—can  
you brave the chances on an Alber-  
ta farm?  
We advise you to be very care-  
ful in the selection of land and lo-  
cation.

Look to the future rather than  
to the present, we will help you  
make that future what it ought to  
be. Yours Very Respectfully,  
H. W. Wood, President.

**Machinery For Soldiers**

Soldiers in this district who are taking up land under the soldier settlement plan, can secure their machinery at greatly reduced prices by calling at Morrison & Johnston's Implement Warehouse.

Soldier's desiring to purchase necessary equipment to put the land on a paying basis in the shortest length of time, will find their applications with the nearest Soldiers' Settlement Board office. Upon approval of the application by the supervisor, the applicant will be referred to local implement agent in the community where he plans to settle. This agent will furnish the soldier with equipment called for and will take the soldier's receipt for goods purchased. The agent makes his settlement with the manufacturer and both the manufacturer and soldier make settlement with the Returned Soldiers' Settlement Board.

**Early Seeding**

S. Leske, of the Bentley District, got an early start this spring and report on Friday that his wheat seeding was finished. The weather could not be better for seeding than at present, and the outlook for a record acreage is looked for in this district. The light rainfall the latter part of the week was welcome, and the farmers are all busy on the land. There is a slight labor shortage here, but reports from

Calgary and Edmonton show that thousands of men are idle in these cities but refused to go on the farms. Wages offered by farmers through Central Alberta runs from \$60 to \$75 per month. If the idle men in the cities refuse to work, the government intends shortly to import needed help from the east.

Get your Easter flowers from Mrs. Gibberson, at Arnot's store.

The Red Cross Sewers and handkerchiefs were sold with Mrs. J. McNab on Friday, April 11th. A full attendance is requested as there is a great deal of work on hand to finish up.

There is a mistake in the Red Cross Annual report of the supplies sent in during the past year by the Lacombe Branch. We should have been credited with \$5399.23 instead of \$699.23. On correspondence with the Provincial Secretary, we find this error was on the part of the clerk who transferred the figures into the Annual Report.

Use flatstone on your walks. Morrison and Johnston, Ltd.

**EASTER FLOWERS**

Mrs. Gibberson will be at Arnot's Store next week with a beautiful display of Easter Flowers. Leave your orders early.
